

BIKE TOUR***

In the Heart of the
National Park

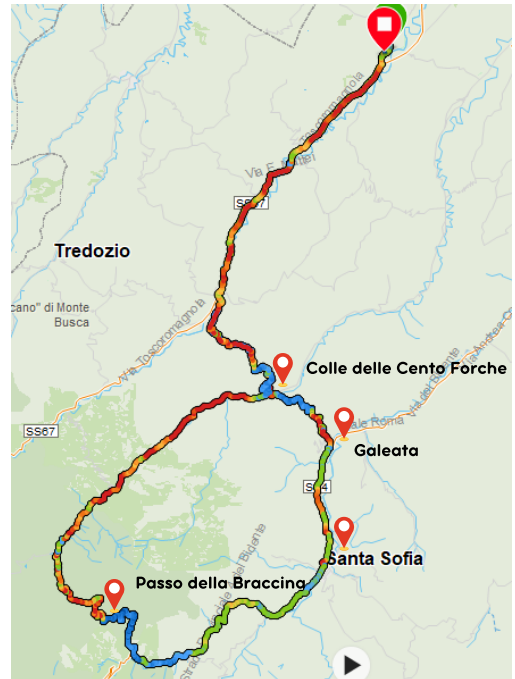

Circular route for experts and
lovers of uphill. A full immersion in
the green of the Foreste
Casentinesi National Park,
through picturesque villages and
breathtaking landscapes

From Castrocaro follow the SS 77 passing through Dovadola and Rocca S. Casciano, then turn left along a climb of about 6 km until you reach the Colle delle Cento Forche. Going towards Galeata, we turn right heading towards S. Sofia and Corniolo. From here a climb of about 6 km takes us to the Passo della Braccina; from here we continue our route passing through Fiumicello and Premilcuore. At the junction towards Rocca S. Casciano we turn left, arriving again at the Colle delle Cento Forche, Rocca S. Casciano, Dovadola and back to Castrocaro.

We recommend a stop in the characteristic village of Santa Sofia, whose square overlooks the Bidente river below

The route has two points a little challenging, the climb to the Colle delle Cento Forche and the one that leads to the Passo della Braccina
